

# **Preschool Trip to Malaika Beach**

Preschool had been learning about sea creatures as a topic. We thought going to Malaika beach resort would be the perfect opportunity for the children to experience and explore the different facilities at the park.

We left the school at 8:30am on the 22<sup>nd</sup> May 2024. The ride was about 30 minutes and the children got to see the change of scenery as we passed by different areas. The children got the chance to ask questions and discuss about different places they have been with their families and friends. They were also able to socialize and sing different songs on our way there.

The children were able to experience visually seeing the lake and fishermen getting the catch of the day. We were able to talk about different sea creatures found in Lake Victoria like Nile-perch, crocodiles, small sardines, tilapia and birds. They were able to investigate different sounds in the lakeside.

The children got the chance to interact with peers and work as a team to tackle different play equipment and in the end teamwork and taking turns was the way to go. The children also got the chance to play in a jumping castle and the highlight of the day was playing in the water park as they got the chance to swim and play with different equipment. We ended our lovely day with a picnic overlooking the lakeshore.
