

## **Year 1 Trip to Waghill**

At the end of June, Year 1 went on their end of year school trip to Waghill Lodge. They had a superb day filled with many interesting activities, beginning with a tour of the Waghill Zoo. The children listened to the zoo keeper very well and learnt lots of facts about each animal and bird. They were able to feed the zebras which was very exciting and provided some wonderfully funny memories that they have been talking about since.

The children visited the activity playground which included trampolines, slides, swings, monkey bars and bridges. Whilst they were playing the children were offered the chance to ride on a horse or a camel. They thought the experience was fantastic and it was very entertaining for the children to experience the animals in this way.

The children enjoyed swimming and playing together around the pool. Everyone was very impressed with how sensible the children were both in the pool and when getting changed. After such a busy morning we were ready for lunch at the Waterfront Restaurant where we were served a delicious lunch in front of the lake. The children relaxed over lunchtime and enjoyed discussing the day's activities. The staff at Waghill were wonderful and made the children feel very special.

Teachers were delighted with how well the day went and how well behaved each member of the class was. They are confident that Waghill will be eager to invite Mwanza International School back for another visit. The class made the school very proud, and they each enjoyed the day very much.
